The Importance of being Certified

**GOTS Certified
by Oregon Tilth**

The Global Organic Textile Standard (GOTS) is one of the most comprehensive international standards for the handling and manufacturing of Organic textiles. Our entire supply chain for Organic cotton apparel and bags has been certified by Oregon Tilth, an independent third party certifying agency, in order to ensure the "organic status of textiles, from harvesting of the raw materials, through **environmentally** and **socially responsible** manufacturing up to labeling". Our 2009 Organic cotton collection includes 14 products that have earned the distinction of being able to carry the GOTS seal.

- Independent third party certifying agency verification of green claims
- Certification provides credible assurance to the end user
- GOTS provides a definitive set of criteria for responsible production of organic textiles
- GOTS is comprehensive in nature; going beyond the fiber to address the entire manufacturing process
- Global harmonization of standards strengthens adoption of responsible manufacturing practices.
